Interesting point on last year's Catchin for the Kids Tournament

Mike has been on the TV show with Herb Gordon and spoke on catching spadefish.

Mid May they follow black drum in. On the mussel beds

First full moon in June is when they start

Fish pilings hard and he uses egg sinker, two foot leader and 3/0 strong hook

Best bait is fiddler crabs – second best is Blue Crab

Southwest light wind – very hot day – clear water- fish the center piling

Between the 4<sup>th</sup> island and high rise there are big schools of **spades** especially around the middle ground. Beginning and end of tides.

### **Members only portion of the meeting**

JB discussed the tax exempt status of the NAC and what needed to be done to make the club a tax exempt organization. Club does have an employer ID number. Since 2005 club was not a tax exempt organization. Went over forms that were submitted and forms that were to be submitted. NAC has had a CPA going over the information and helping with the process.

Answered questions from club members
